

The DELTASHOP

The **Only** Right Combination Of Basic Power Tools
You can buy it pre-assembled ready to use or on the easy tool-at-a-time plan

The Complete DELTASHOP

Here is a revolutionary new combination tool designed specifically for the man who has work to do around the house — necessary work, such as building shelves or cabinets, making screens, storm windows or even furniture.

Includes circular saw, jointer, drill press and sander — the four most basic tools in any workshop — the four tools which enable you to do each job involved in home repair and maintenance.

The DELTASHOP is the only combination tool that is built around a rugged, accurate circular saw — most used of all shop tools. Any job you do must start with a saw cut — that's why the DELTASHOP has a real tilting arbor saw, not a lightweight attachment.

Catalog Listing for Pre-assembled Deltashop:

BASIC MACHINE—consisting of No. 34-500 8" Tilting Arbor Saw, No. 37-110 4" Jointer, No. 37-113 Jointer Raising Block, No. 11-130 11" Drill Press (complete with No. 49-179 belt and 49-189 saw arbor pulley) No. 31-200 Disk Sander, No. 31-201 Sander Base Plate with belt, No. 50-308 Stand, No. 49-185 Belt and Pulley Group for saw drive (No. 49-152 Belt and No. 5225 Pulley) and No. 49-186 Belt and Pulley Group for Jointer Drive (No. 49-182 Pulley and No. 410 Belt).

Includes No. 62-253 3/4 HP Capacitor Motor, 115 V, 60 cycle, 3450 rpm, 5/8" dia. double shaft ball bearing, with switch, cord and plug, with thermal overload manual reset button.

Cat. No. 34-835

For catalog listings on the Deltashop Tool-at-a-Time Plan and specifications on the individual tools, see page 75.

Accessories for the Deltashop:

With Delta's complete line of accessories, each individual Deltashop Tool becomes a multi-purpose tool capable of doing many additional jobs. See accessories listed under:

No. 34-500 Tilting Arbor Circular Saw No. 11-120 Drill Press
No. 37-110 4" Jointer No. 31-200 Disk Sander

At a later date, you can Mount Your Drill Press Separately.

As your workshop grows you may wish to mount your Deltashop Drill Press so that it is always available under its own power. Special conversion kits are available for this purpose.

KIT NO. 1 INCLUDES Motor mounting bracket, 4-speed pulley and belt.

Cat. No. 49-190

KIT NO. 2. Bench type base with 6" x 7-3/4" ground table surface. Has machined parallel slots for mounting jigs and fixtures.

Cat. No. 49-191

Motor 1/3 HP Capacitor, 115 V., 60 cycle, 1725 r.p.m. 1/2" dia. single shaft ball bearing. With switch, cord and plug with thermal overload manual reset button.

Cat. No. 62-413

If your present space is limited you can combine your saw and drill press.

The assembly listed below enables you to convert your regular No. 11-120 Drill Press to a No. 11-130 Deltashop Drill Press so it can be mounted to your No. 34-500 Circular Saw.

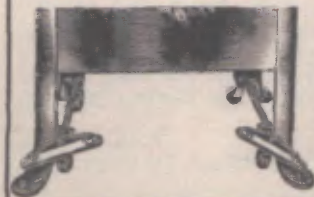

Assembly. Includes support bracket, idler pulley, mounting base, V-belt and assembly parts.

Cat. No. 49-193

Mounting Base. With assembly parts only.

Cat. No. 49-192

NEW RETRACTABLE CASTER SET for YOUR DELTASHOP

With these specially designed retractable casters you can store your Deltashop anywhere. Roll it out when you need it, roll it back when you're finished.

Retractable Caster Set for your Deltashop.

Cat. No. 49-360

The DELTASHOP

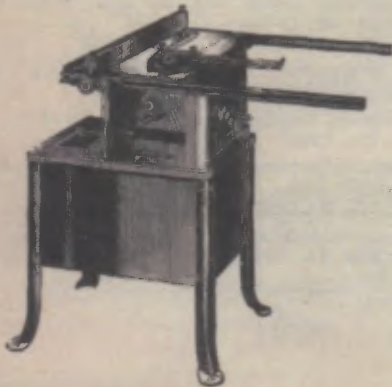

TOOL-AT-A-TIME PLAN

Because the Deltashop is a combination of standard Delta tools, you can buy it one tool at a time.

Start with Package No. 1, the circular saw and stand. Add the jointer, drill press and sander as your budget permits.

The necessary belt and pulley groups are included in the packages as well as all parts required for assembly. For best results, in all cases, order by the assigned catalog numbers.

PACKAGE NO. 1 Circular Saw and Stand

Catalog Listing

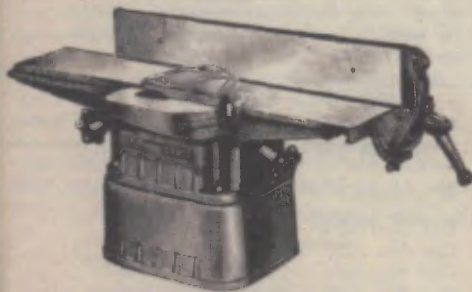

BASIC MACHINE — includes No. 34-500 tilting arbor circular saw, No. 50-308 steel stand, No. 5225 motor pulley and No. 49-152 V-belt. Cat. No. 34-532

Specifications:

Circular Saw: Blade diameter 8"; arbor diameter 5/8"; thickness of cut 2-1/4"; thickness of cut with blade set at 45°, 1-9/16"; maximum rip capacity to center of 48" panel; table size, 15" x 22"; base 24-7/8" x 2"; sealed, lubricated-for-life ball bearings. Machine furnished with No. 864 auto-set miter gage, No. 325 8" combination blade, No. 34-961 Standard table insert, arbor pulley and motor cord.

No. 62-253 motor must be ordered separately with package No. 1. For description see complete Deltashop listing.

PACKAGE NO. 2 The Jointer

Catalog Listing

BASIC MACHINE — includes No. 37-110 jointer, No. 37-113 jointer raising block, No. 49-182 motor pulley, No. 410 belt. Catalog No. 37-114

Specifications:

Jointer: Capacity 4" wide; rabbets 1/4" deep; fence tilts right or left 45°; adjustable stop at 90°; fence 20" long, 3" high; 3-knife cutterhead; rear and front table adjustments; table length overall 24-3/8"; dimensions — 28-1/8" long, 8-1/8" high, 9-3/4" wide; sealed lubricated-for-life ball bearings.

PACKAGE NO. 3 The Drill Press

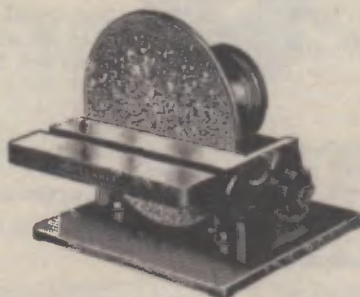

Catalog Listing

BASIC MACHINE — includes the drill press as illustrated, No. 49-179 belt, No. 49-189 saw — drive pulley. Catalog No. 11-130

Specifications:

Drill Press: Table 8" x 8"; column diameter 1-7/8"; spindle to table, 11"; spindle to base, 14-3/8"; spindle travel 3-5/8"; capacity, in cast iron 1/2"; dimensions — 33-3/4" high, 11-3/4" wide, 19-1/4" deep. Furnished complete with 1/2" capacity geared chuck spindle, No. 49-179 belt, and 49-189, 2-1/4" drive pulley for speeds of 3975, 2478, 1725, 1350 r.p.m. Pulley is balanced. Spindles are interchangeable — easy to install "right" spindle for the job.

PACKAGE NO. 4 The Disk Sander

Catalog Listing

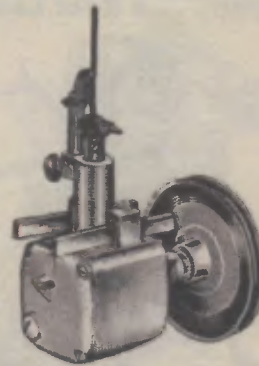

BASIC MACHINE — includes the No. 31-200 8-1/2" disk sander, the No. 31-201 sander base and belt. (Note: No. 49-189 drive pulley is used to drive the sander.) Catalog No. 31-202

Specifications:

Disk Sander: Disk diameter 8-1/2"; dimensions — 11-1/2" wide, 8-7/8" high, 10" deep (with base attached — 12" wide, 9-3/4" high, 10-1/2" deep); table 4-1/8" x 9-7/8"; miter gage groove 3/16" x 1/2"; table tilts to front 45°, to rear 35°; arbor diameter 1/2".

NOW A 5th TOOL

THE NEW CURVE CUTTING SABER SAW ATTACHMENT

This is one of the most exciting tools developed for do-it-yourself enthusiasts. In a matter of seconds this new attachment converts the Deltashop or the Delta No. 34-500 8" Tilting Arbor Circular Saw to an efficient machine capable of doing intricate curve cutting work with unlimited capacity.

Catalog Listing:

BASIC MACHINE—Saber Saw Attachment complete with arbor pulley, two saber blades and blade guides. Wt. 5 1/2 lbs. Cat. No. 40-800

Specifications:

Saber Saw Attachment: Unlimited cutting capacity; thickness of cut, 2" saber blade tilts (with basic saw arbor) 35°; depth cutting capacity at 35°, a full 1 1/4".

Accessories for the Saber Saw Attachment:

For saber blades, machine files, sanding attachment and sleeves, see scroll saw accessories, page 65.

Note: A Special Table Insert which enables you to do sanding and filing in addition to saber saw cutting, must be ordered separately. Order Special Table Insert. Cat. No. 34-969

Deltashop Saw-Jointer Combination

You can form an ideal tilting arbor saw-jointer combination by ordering Packages No. 1 and No. 2 of the Tool-at-a-Time Plan as follows:

Cat. No. 34-532—Package No. 1

Cat. No. 37-114—Package No. 2

Note: Proper motor belts and pulleys are included. No. 62-253 motor must be ordered separately. See catalog listing, No. 34-535 Deltashop.
