GETTING THE MOST OUT OF YOUR DRILL PRESS

TWENTY-SECOND EDITION

A DELTA-CRAFT PUBLICATION

Edited by
JAMES TATE

A Complete Manual Covering all Phases of Drill Press
Operation in the Home Workshop with Over Two
Hundred Photographic Illustrations and Line Drawings.

Copyright 1937

DELTA POWER TOOL DIVISION

Rockwell MANUFACTURING COMPANY

MILWAUKEE 1, WISCONSIN

MAIN CONTENTS

• GETTING THE MOST OUT OF YOUR DRILL PRESS

CHAPTER ONE—THE DRILL PRESS.

Construction—Size—Power and Speed—Spindles—Inserting Spindle—Belt Tension—Inserting Drills—Centering Table—Adjusting Spindle Return Spring—Tilting Table..... 4-7

CHAPTER TWO—LAYING OUT THE WORK.

Laying Out Necessary—The Combination Square—Hermaphrodite Calipers—Marking—Examples of Layout—Laying Out Dowel Holes—Surface Gage—Punches..... 8-10

CHAPTER THREE—WOOD BITS.

Names of Parts—Common Styles of Wood Bits—Screw and Brad Points—Conditioning—Other Bit Styles—Plug Cutters—Mortising Bits and Chisels—Twist Drills for Wood—Sanding Drums—Grinding Wheels 11-13

CHAPTER FOUR—DRILLING PRACTICE IN WOOD.

Speed—Boring a Hole—Boring Holes at an Angle—Boring Holes to Depth—Boring Holes in Series—Holes in Round Work—Use of Pivot Pin—Boring Deep Holes—Boring Large Holes—Drilling Screw Holes—Countersinking—Boring Mortises—Cutting Dowels—Boring Dowel Holes—Fitting Dowels 14-19

CHAPTER FIVE—TWIST DRILLS.

Twist Drills—Point Angle—Lip Clearance—How to Grind—Web Thinning—Drilling in Brass 20-22

CHAPTER SIX—DRILLING PRACTICE IN METAL.

Clamping Is Important—Stop Bolts—Strap Clamps—Parallels—Standard Fixtures—Guarding Against Spring—Mounting Work Vertical—Use of Vise—Use of Lathe Chuck—Other Job Set-ups—Drawing a Drill—Countersinking—Countersinking Plate—Drilling Round Stock—Drilling Large Holes—Drilling Very Small Holes—Drilling Sheet Metal—Drilling for Tapped Holes—Starting the Tap—Tap Styles—Tapping on the Drill Press 23-28

CHAPTER SEVEN—ROUTING ON THE DRILL PRESS.

Routing—Using Mortising Fence—Guard—Rotation and Feed—Use of Circular Saw Fence—Routing Curved Work—Rabbeting—Cross Routing—Using Small Router Bits—Routing with Pattern—Mortising—Fluting—Cutting Rosettes—Using Pivot Pin—Production Work 29-32

CHAPTER EIGHT—SHAPING ON THE DRILL PRESS.

Adaptability—Position of Head—Cutters—Methods of Working..... 33-34

CHAPTER NINE—MORTISING ON THE DRILL PRESS.

Conversion—Inserting Chisel—Cutting the Mortise—Variations..... 35-36

CHAPTER TEN—MISCELLANEOUS DRILL PRESS OPERATIONS.

Drilling Glass—Drilling Slate and Marble—Drilling Paper—Drilling Plastics—Milling—Cutting and Fitting Plugs—Carving—Surfacing—Sanding—Sanding with Pattern..... 37-40

CHAPTER ELEVEN—USEFUL IDEAS.

Spinning Rivets—Making Flat Drills—Fluting Turned Work—Boring Jigs—Cutting Disks—Cutting Tenons—Circle Jig—Mixing Paint—Engine Finish—Pointing Dowel Rod—Using Drill Press as Vise—Sanding Table Legs—Tapering Dowels—Polishing..... 41-44

APPENDIX

Decimal Equivalents—Number-size Drills—Letter-size Drills—Drill Sizes for Machine and Wood Screws—Standard Drill Press Operating Speeds—Drill Lubricants—Glass Table—Board Measure—Drill Speeds 45-48

MAIN CONTENTS

• GETTING THE MOST OUT OF YOUR DRILL PRESS

CHAPTER ONE—THE DRILL PRESS.

Construction—Size—Power and Speed—Spindles—Inserting Spindle—Belt Tension—
Inserting Drills—Centering Table—Adjusting Spindle Return Spring—Tilting Table..... 4-7

CHAPTER TWO—LAYING OUT THE WORK.

Laying Out Necessary—The Combination Square—Hermaphrodite Calipers—Mark-
ing—Examples of Layout—Laying Out Dowel Holes—Surface Gage—Punches..... 8-10

CHAPTER THREE—WOOD BITS.

Names of Parts—Common Styles of Wood Bits—Screw and Brad Points—Condition-
ing—Other Bit Styles—Plug Cutters—Mortising Bits and Chisels—Twist Drills for
Wood—Sanding Drums—Grinding Wheels 11-13

CHAPTER FOUR—DRILLING PRACTICE IN WOOD.

Speed—Boring a Hole—Boring Holes at an Angle—Boring Holes to Depth—Bor-
ing Holes in Series—Holes in Round Work—Use of Pivot Pin—Boring Deep Holes
—Boring Large Holes—Drilling Screw Holes—Countersinking—Boring Mortises—
Cutting Dowels—Boring Dowel Holes—Fitting Dowels 14-19

CHAPTER FIVE—TWIST DRILLS.

Twist Drills—Point Angle—Lip Clearance—How to Grind—Web Thinning—Drilling
in Brass 20-22

CHAPTER SIX—DRILLING PRACTICE IN METAL.

Clamping Is Important—Stop Bolts—Strap Clamps—Parallels—Standard Fixtures—
Guarding Against Spring—Mounting Work Vertical—Use of Vise—Use of Lath
Chuck—Other Job Set-ups—Drawing a Drill—Countersinking—Countersinking Plate
—Drilling Round Stock—Drilling Large Holes—Drilling Very Small Holes—Drilling
Sheet Metal—Drilling for Tapped Holes—Starting the Tap—Tap Styles—Tapping on
the Drill Press 23-28

CHAPTER SEVEN—ROUTING ON THE DRILL PRESS.

Routing—Using Mortising Fence—Guard—Rotation and Feed—Use of Circular Saw
Fence—Routing Curved Work—Rabbeting—Cross Routing—Using Small Router Bits
—Routing with Pattern—Mortising—Fluting—Cutting Rosettes—Using Pivot Pin—
Production Work 29-32

CHAPTER EIGHT—SHAPING ON THE DRILL PRESS.

Adaptability—Position of Head—Cutters—Methods of Working..... 33-34

CHAPTER NINE—MORTISING ON THE DRILL PRESS.

Conversion—Inserting Chisel—Cutting the Mortise—Variations..... 35-36

CHAPTER TEN—MISCELLANEOUS DRILL PRESS OPERATIONS.

Drilling Glass—Drilling Slate and Marble—Drilling Paper—Drilling Plastics—Milling
—Cutting and Fitting Plugs—Carving—Surfacing—Sanding—Sanding with Pattern..... 37-40

CHAPTER ELEVEN—USEFUL IDEAS.

Spinning Rivets—Making Flat Drills—Fluting Turned Work—Boring Jigs—Cutting
Dieks—Cutting Tenons—Circle Jig—Mixing Paint—Engine Finish—Pointing Dowel
Rod—Using Drill Press as Vise—Sanding Table Legs—Tapering Dowels—Polishing..... 41-44

APPENDIX

Decimal Equivalent—Number-size Drills—Letter-size Drills—Drill Sizes for Machine
and Wood Screws—Standard Drill Press Operating Speeds—Drill Lubricants—Glass
Table—Board Measure—Drill Speeds 45-48
